

The Coast Christian School

“LA submitted the most competitive bid for both time and price.”

PHIL STANTON, ARCHITECT

LA group of companies

PROJECT DETAILS

CLIENT

Coast Christian School

DESIGN

Stanton Dahl Architects

CONSTRUCTION TIME

22 weeks

PROJECT COST

\$1,500,000

LA's lump sum tender was successful for the first stage of permanent structures which consisted of the construction of a five GPLA classroom block and canteen facilities. Major infrastructure works including services, water detention, road widening, car parking and raised playing fields were also undertaken for this and future stages of the proposed development. LA's planned and systematic approach enabled the entire site to be developed simultaneously, thus ensuring the client had full access to the classrooms at the start of the new school year.
