

GREEN POINT CHRISTIAN COLLEGE

LIMITED ACN 003 829 767

A Ministry of Green Point Baptist Church

To Whom it may Concern

MATTHEW LUSTED

In my role as Principal of Green Point Christian College, I have been involved in significant building programs over the years, as the College has expanded.

Our last building program involved a 1000 seat Multi Purpose Hall and associated facilities, together with two classroom blocks of nine rooms, staff room and renovations to our Administration building. In order to minimize costs and maximize our building benefit, we began to talk to Lusted's in early 1998 with the purpose of having them work with us in developing the most cost effective way of building our facilities.

I have always found Matthew to be open, honest and responsive during this building program and in subsequent dealings. He is a man of integrity who sets a high standard in his personal life and in his work. During this time I have come to respect him as a friend and have no hesitation in recommending him either personally or professionally.

In terms of the building works Lusted's have completed for the College, we remain happy with the quality of work and the outcome of the project. During the building works, Matthew acted as the Project Manager and was in constant communication with us as the client, to ensure that our needs were being met and we were adequately involved in the project. This method of operation empowered us as the client and we found a very mutually beneficial way to execute the contracts.

I would be happy to offer a personal reference regarding Matthew should this be required.

Yours faithfully

Keith Francis
Principal
