Our Vision "To provide a happy place, respectful of individuals and resident centred".

LA Commercial began their association with Vietnam Veterans Keith Payne VC Hostel in 2006. Our first project with LA Commercial was a large extension to our existing aged care facility. We were faced with some major challenges in this project, however the team at LA ensured that the project was finished on schedule and when issues which did arise they were dealt with in a very professional manner

Not only is their workmanship first class, but with LA Commercial it is the extras which make all the difference.

In June 2008 we again used LA Commercial to upgrade our existing kitchen facilities. This involved shutting down our existing kitchen, relocating our dining room and construction of new coolroom and freezer facilities. Considering our kitchen serves over 60,000 meals per year this was a major job. The entire project was planned in very close consultation and the construction went off without a hitch. Their professional and dedicated team ensured that the finished project was first class

We have also had LA construct a reception area and in the coming months we will begin re roofing of our existing building

I can highly recommend the team at LA Commercial. You will not be disappointed

Justin Dover
